

MAGX1 last pieces in our stock

Following requests from our customers for additional technical requirements in our MAGX1, we developed and launched our new type MAGX2 in April 2010 which is replacing the MAGX1. We are expecting that our existing stock of MAGX1 will be sold by June. Most of your enquiries will be quoted from the 1st June with the new type MAGX2. We believe that the new type MAGX2 and the changes will satisfy all requirements.

MAGB1 new sizes available!

Due to your requirements and our development progress we are happy to offer higher sizes for battery powered type MAGB1. From 1st July we would be able to offer sizes up to DN 350 (ANSI 14"). Information about prices can be found in our new pricelist for MAGB1.

0-10V Voltage Output Signal Module only on request

Due to very low demand from our customers and due to some changes in our technological processes in our production, we have decided to offer 0-10V Voltage Output Signal Module only on request. Also the price will be quoted individually according to the quantities in your enquiries. More information can be obtained directly from our sales department. Email: office@arkon.co.uk

New price list available from 1st June 2010

New accessories have been added to the existing prices for MAGX2 and MAGB1.

MAGB1 – Special launching offer

In order to support you in marketing our new battery powered flowmeter MAGB1, we have prepared for you, special discounts and a free battery pack 39000 for each MAGB1 ordered from 1st June till 31st August. For more information, please contact our sales department. Email: office@arkon.co.uk

Special offer for training

We would also be happy to offer training at our premises in the Czech Republic for our new products. We will cover the costs of 2 nights stay in a hotel. In case of your interest, please contact our sales department. Email: office@arkon.co.uk
